

Guidance Notes – Full Plans Application

FULL PLANS APPLICATION

You may use a Full Plans application for any type of work. Full Plans applications benefit from a full check at design stage for compliance with the Building Regulations. You must submit a Full Plans Application if the works involve a building to which the Regulatory Reform (Fire Safety) Order 2005 applies or the work which includes the erection of a building fronts onto a private street.

NOTE - Plans are only full plans if they consist of—

- (a) a description of the proposed building work, renovation or replacement of a thermal element, change to the building's energy status or material change of use;*
- (b) the plans, particulars and statements required by paragraphs (1), (1A) and (2) of regulation 13;*
- (c) where paragraph H4 of Schedule 1 imposes a requirement, particulars of the precautions to be taken in building over a drain, sewer or disposal main to comply with the requirements of that paragraph; and*
- (d) any other plans which are necessary to show that the work would comply with these Regulations.*
