

What is your place like?

Information for teachers and parents

- ◇ This questionnaire has been designed by Babergh and Mid Suffolk District Council's People and Place Team, who are hoping to engage a wider audience in planning.
- ◇ The questionnaire forms part of a wider range of materials aimed at getting children involved in planning by finding out what is important to them about where they live, and what they think could be improved.
- ◇ This questionnaire contains twelve questions, which are aimed at children aged 7-11 years to answer.
- ◇ If the children are able to fill in the questionnaire within their lesson or at home and can return the completed form to the school that would be greatly appreciated.
- ◇ Alongside increasing the input and knowledge of children in planning, a new approach is being taken in regard to how members of the community can be involved in planning if they wish, more information can be found on our website at <https://www.babergh.gov.uk/planning/people-and-place-team>
- ◇ There is also an easily accessible sense of place questionnaire for adults to fill out on the website, and if you have time, we would love to hear from you. The questionnaire can be found on our webpage at [https://bmsdc-self.achieveservice.com/service/Accessible Sense of Place Toolkit](https://bmsdc-self.achieveservice.com/service/Accessible%20Sense%20of%20Place%20Toolkit) or can be accessed via the QR code below.

What is your place like?

1. What are the happiest memories about where you live?

2. What are your favourite places in your village or town?

3. Can you see the stars at night from where you live?

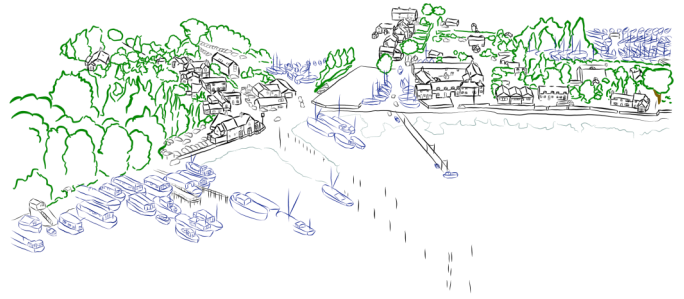

4. What noises can you hear outside your house during the day and at night?

5. What can you see from your bedroom window?

6. What adventures can you go on where you live?

What is your place like?

7. Are there any places that you don't like in your village or town and why?

8. Are there places in your village that smell good and is there anywhere that smells bad?

9. What animals can you see around where you live?

10. Are there any special trees near you? What makes them special?

11. Are there any interesting buildings near you and what makes them interesting?

12. What can you see when you're in the car that lets you know you are nearly home?
