

Diss and District Neighbourhood Plan 2021-2038

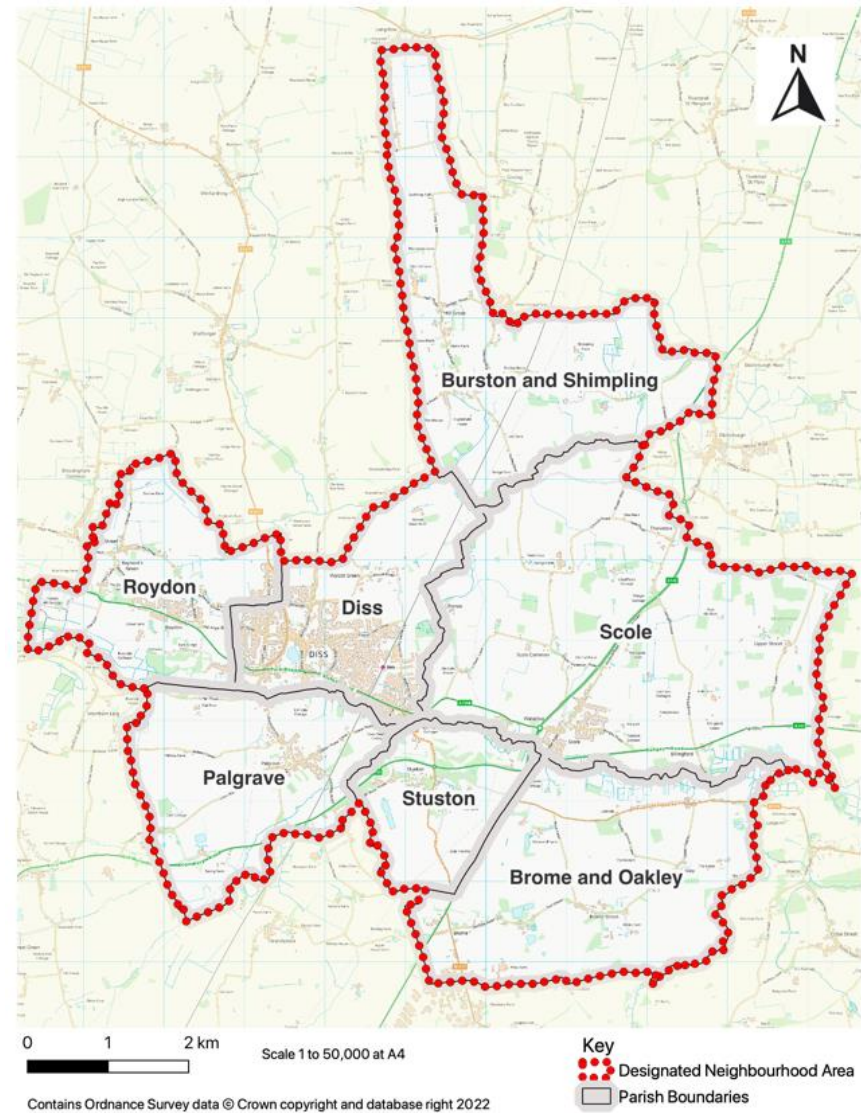

**Statement of Basic Conditions
June 2022**

Table of Contents

SECTION 1: INTRODUCTION	2
SECTION 2: LEGAL AND REGULATORY COMPLIANCE	3
SECTION 3: DUE REGARD TO THE NPPF	3
SECTION 4: SUSTAINABLE DEVELOPMENT	19
SECTION 5: GENERAL CONFORMITY WITH LOCAL STRATEGIC POLICIES	20
SECTION 6: EU OBLIGATIONS	36
SECTION 7: PRESCRIBED CONDITIONS	37

Figure 1: Designated Area

Section 1: Introduction

1. This Basic Conditions Statement has been prepared by [Collective Community Planning](#) on behalf of Diss & District Neighbourhood Plan Steering Group to accompany the Diss & District Neighbourhood Plan 2020-36 (DDNP).
2. The purpose of the statement is to demonstrate that DDNP meets the legal requirements for a Neighbourhood Plan and the five basic conditions as set out in paragraph 8(2) of Schedule 4B of the Town and Country Planning Act 1990, as applied to Neighbourhood Development Plans by Section 38A of the Planning and Compulsory Purchase Act 2004.
3. The five basic conditions that a neighbourhood plan is expected to meet are:
 - a) Having regard to national policies and advice contained in guidance issued by the Secretary of State, it is appropriate to make the neighbourhood development plan;
 - b) The making of the neighbourhood development plan contributes to the achievement of sustainable development;
 - c) The making of the neighbourhood development plan is in general conformity with the strategic policies contained in the development plan for the area of the authority (or any part of that area);
 - d) The making of the neighbourhood development plan does not breach, and is otherwise compatible with EU obligations; and
 - e) Prescribed conditions are met in relation to the plan and prescribed matters have been complied with in connection with the proposal for the plan.
4. There is one prescribed basic condition for Neighbourhood Development Plans, in relation to e) above, that *“the making of the neighbourhood development plan is not likely to have a significant effect on a European site (as defined in the Conservation of Habitats and Species Regulations 2010) or a European offshore marine site (as defined in the Offshore Marine Conservation (Natural Habitats, &c.) Regulations 2007), either alone or in combination with other plans or projects”*.
5. This statement confirms that:
 - The legal compliance requirements have been met (section 2);
 - DDNP has had due regard to national policies and advice contained in guidance issued by the Secretary of State (Section 3);
 - DDNP contributes towards sustainable development (Section 4);
 - DDNP is in general conformity with the strategic policies contained in the local plans for South Norfolk and Mid Suffolk (Section 5).
 - DDNP does not breach and is otherwise compatible with EU obligations, and that its making is not likely to have a significant effect on the environment, either alone or in combination with other plans or projects (Section 6); and
 - DDNP meets the prescribed conditions for Neighbourhood Development Plans (Section 7).

Section 2: Legal and Regulatory Compliance

6. DDNP has been prepared in accordance with The Neighbourhood Planning (General) Regulations 2012 (as amended). The plan also has regard to policies within the National Planning Policy Framework (NPPF) and guidance from the National Planning Practice Guidance (NPPG). The NPPG largely reflects the Regulations, providing further guidance as to how such requirements can be met.
7. DDNP is a joint neighbourhood plan between Diss Town Council and surrounding parish councils: Roydon, Burston & Shimpling, and Scole in South Norfolk and Palgrave, Stuston and Brome & Oakley in Mid-Suffolk. As well as being designated by two local planning authority areas, DDNP spans a county boundary, Norfolk and Suffolk. Importantly the area is also demarcated by the River Waveney which runs along the county boundaries, splitting the area in two. No other neighbourhood plan has or is being made for this area. The qualifying body for DDNP is Diss Town Council. DDNP includes a map of the designated area, see **Figure 1** of this report.
8. DDNP sets out policies in relation to development and the use of land in the designated neighbourhood area and which has been prepared in accordance with the statutory provisions. Initial consultations had due regard to guidance whilst the two Regulation 14 (Pre-Submission) consultations was consistent with the specific regulatory requirements, as detailed in the Consultation Statement.

9. DDNP covers the period 2019-38 which is in general conformity with the timeframes for the strategic policies in the relevant emerging Local Plans for Babergh and Mid Suffolk Joint Local Plan (2019-2037) and the Greater Norwich Local Plan (2018-2038) which is a joint strategic plan covering Norwich, South Norfolk and Broadland.
10. DDNP does not include provision of development types that are excluded development, such as minerals and waste matters, nationally significant infrastructure projects or other prescribed development under Section 61K of the Town and Country Planning Act 1990.

Section 3: Due Regard to the NPPF

11. National planning policy is set out in the NPPF. The most recent version was published in July 2021. DDNP has been prepared with the policies and guidance contained within the NPPF at its core. The NPPF sets out more specific guidance on neighbourhood plans at Paragraphs 28 to 30, but there is relevant policy throughout other parts of the NPPF.
12. **Figure 2** demonstrates how DDNP has had regard to national policy by cross referencing its policies against national policy and guidance. It should be noted that the table is not exhaustive and there may be other cross-references that are not included.

Figure 2: National Planning Policy Framework

DDNP Policy	NPPF (and PPG) Cross References	Comments
General	<p>NPPF:</p> <ul style="list-style-type: none"> - Section 2 (Achieving sustainable development) Para 8, Para 11 - Section 3 (Plan-making) Para 15, Para 28, - Section 5 (Delivering a sufficient supply of homes) Para 60, 67 - Section 6 (Building a strong, competitive economy) Para 81 - Section 7 (Ensuring the vitality of town centres) Para 86, Para 106 - Section 8 (Promoting healthy and safe communities) Para 92, Para 100 - Section 9 (Promoting sustainable transport) Para 104, 105, 106, 130 - Section 10 (Supporting high quality communications) Para 114 - Section 12 (Achieving well-designed places) Para 127, Para 130, - Section 14 (Meeting the challenge of climate change, flooding, and coastal change) Para 153, 169 - Section 15 (Conserving and enhancing the natural environment) Para 174, 183, 185 	<p>DDNP will help to deliver sustainable growth that meets the economic, social, and environmental objectives. It provides a suite of policies that will shape and direct development outside of the current strategic policies set out in the prevailing local plans. It supports these strategic policies as shown in Figure 3.</p> <p>DDNP provides a framework for addressing housing needs and other economic, social, and environmental priorities, and has been a platform for local people to shape their surroundings. It has been prepared positively and has engaged the community and other consultees, as set out in the Consultation Statement.</p> <p>DDNP includes non-strategic policies for housing, design principles, conserving and enhancing the natural environment and other development management matters.</p> <p>The Plan also allocates 16 sites for new housing, employment, and leisure (DDNP1-DDNP16). 13 allocations are for residential housing (DDNP1-DDNP13), 2 sites are for regeneration and leisure purposes (DDNP14-DDNP15) within the Waveney Quarter, and DDNP17 is a site allocated for employment use.</p> <p>It is supported by a proportionate evidence base which includes a Housing Needs Assessment (HNA), Evidence Base and Key Issues, Design Codes, Site Options and Assessment (SOA), Strategic Environmental Assessment (SEA) and Habitats Regulation</p>

		(NPPF Para 127). This policy conforms with the NPPF by doing the above, the community chose these local views to ensure they are protected and did this through a thorough assessment.
Policy 17: Designated and Non-Designated Heritage Assets	<p>NPPF</p> <ul style="list-style-type: none"> - Section 16 (Conserving and enhancing the historic environment) Para 190, 197 <p>Historic Environment</p> <p>Designated Heritage Assets PPG Paragraph: 023 Reference ID: 18a-023-20190723</p> <p>Non-Designated Heritage Assets- PPG Paragraph: 040 Reference ID: 18a-040-20190723</p>	<p>The Non-Designated Heritage Assets identified were picked for their local significance. Each were thorough assessment in accordance with Historic England listing criteria. This involved making use of local knowledge and the Historic Environment Record.</p> <p>The assessment conformed with the PPG by following the guidance and advice from the Historic England website and included up to date information from the local historic environment record. The policy conforms with the NPPF and PPG by providing clauses to set a positive approach to conserve and enhance heritage assets and their appearance.</p>

Section 4: Sustainable Development

13. A widely accepted definition of sustainable development is ‘development that meets the needs of the present without compromising the ability of future generations to meet their own need’¹. It is about ensuring better quality of life for everyone, now and for generations to come. In doing so, social,

environmental, and economic issues and challenges should be considered in an integrated and balanced way.

14. This is captured by Paragraph 8 of the NPPF in particular, which summarises the three interdependent objectives. **Figure 2** includes a number of references to NPPF para 8, demonstrating the policies in DDNP that have due regard to these overarching objectives.

¹ United Nations: Report of the World Commission on Environment and Development: Our Common Future, March 1987

15. The NPPF as a whole represents sustainable development, and **Figure 2** sets out that DDNP is very consistent with the NPPF. It should therefore be the case that DDNP will help to deliver sustainable development in Diss & District through delivering the economic, social, and environmental objectives.

16. DDNP is positively prepared, reflecting the presumption in the NPPF in favour of sustainable development, but it seeks to manage development pressures to ensure that, in addition to economic and growth considerations, reasonable environmental and social considerations are taken into account.

Section 5: General Conformity with Local Strategic Policies

17. It is a requirement that DDNP is in general conformity with the relevant local strategic policies. The Guidance on Neighbourhood Planning sets out what is meant by general conformity. When considering whether a policy is in general conformity, a qualifying body, independent examiner, or local planning authority, should consider the following:

- Whether the neighbourhood plan policy of development proposal supports and upholds the general principle that the strategic policy is concerned with;
- The degree, if any, of conflict between the draft neighbourhood plan policy or development proposal and the strategic policy;
- Whether the draft neighbourhood plan policy provides an additional level of detail and/or a distinct local approach

to that set out in the strategic policy without undermining that policy;

- The rationale for the approach taken in the draft neighbourhood plan or Order and the evidence to justify that approach.

18. The DDNP area falls within two local authority areas, Mid Suffolk Council (MSC) and South Norfolk Council (SNC). The local plans for these areas contain the strategic policies of relevance for this neighbourhood plan. The current adopted local plans covering the DDNP area are:

- The Mid Suffolk Local Plan Core Strategy (2012-2025)
- The Joint Core Strategy (JCS) for Broadland, Norwich and South Norfolk (2011-2026)
- South Norfolk Local Plan (SNLP) Development Management Policies Document (2015)

19. Both MSC and SNC have emerging local plans. This includes the Babergh and Mid Suffolk Joint Local Plan (2019-2037) and the Greater Norwich Local Plan (2018-2038) which covers Norwich, Broadland and South Norfolk. South Norfolk Council also has an emerging Village Clusters Housing Allocation Plan.

20. The JLP is at an advanced stage, having been through Examination, and therefore holds some weight. It has therefore been considered alongside the adopted local plans.

21. **Figure 3** reviews each policy in the submitted DDNP with respect to the current strategic local plan policies.

Figure 3: General Conformity with Local Strategic Policies

The policy conforms with policy 1, 2 and CS5 by protecting environmental assets and the landscape setting.
Policy 17: Designated and Non-Designated	Core Strategy <ul style="list-style-type: none"> • Policy CS5- Mid Suffolk's Environment 	JCS <ul style="list-style-type: none"> • Policy 1: Addressing climate change and protecting environmental assets • Policy 2: Promoting good design 	This policy intends to set out a positive strategy for protecting and enhancing the character, integrity and appearance of heritage assets. The policy generally conforms with CS5 and Policy 2 which states all development will respect,

DDNP Policy	MSC Local Plan	SNC Local Plan	Comments
Heritage Assets			maintain and enhance the historic environment and policy 1 where heritage assets will be conserved and enhanced through the protection of buildings and structures.

Section 6: EU Obligations

22. A Screening Opinion request was made to MSC and SNC as to whether Strategic Environmental Assessment and Appropriate Assessment (see **section 7**) were required. This was supported by a short report and assessment. In this the DDNP was assessed for likely significant effects upon the environment in light of the plan characteristics, the effects and area characteristics, including the environmental areas listed under Schedule 2 Part 6 of the EA Regulations (2004). The assessment recommended that SEA and HRA appropriate assessment would be required. This was supported by SNC (as the lead planning authority) who undertook a screening exercise in consultation with the Statutory Environmental Bodies (SEBs). The SEBs agreed that SEA was required and this was **screened in** by SNC.

23. **Section 7** of this report considers the requirement for Appropriate Assessment.

24. AECOM undertook a SEA in support of the emerging DDNP. This included establishing and assessing reasonable alternatives for the plan against a set of environmental themes, before

developing a preferred approach. The Environmental Report presents an assessment of the DDNP against the SEA framework theme headings. A series of recommended mitigations measures were made to minimise the potential for negative effects and maximise the potential for positive effects. Each of these recommendations were taken on board in developing the submission version of DDNP.

25. DDNP has regard to and is compatible with the fundamental rights and freedoms guaranteed under the European Convention on Human Rights, transposed into UK law by the Human Rights Act 1998. DDNP is highly likely to be compatible because it has been prepared within the existing framework of statute, and national planning policy and guidance. In accordance with established processes, its preparation has included consultation with the local community.

26. In conclusion, the DDNP does not breach and is compatible with EU Regulations including:

- Directive 2001/42/EC on the assessment of the effects of certain plans and programmes on the environment (often

referred to as the Strategic Environmental Assessment (SEA) Directive);

- Directive 2011/92/EU on the assessment of the effects of certain public and private projects on the environment (often referred to as the Environmental Impact Assessment (EIA) Directive);
- Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and flora and Directive 2009/147/EC on the conservation of wild birds (often referred to as the Habitats and Wild Birds Directives respectively). These aim to protect and improve Europe's most important habitats and species. They may be of relevance to both neighbourhood plans or Orders; and
- Other European directives, such as the Waste Framework Directive (2008/98/EC), Air Quality Directive (2008/50/EC) or the Water Framework Directive (2000/60/EC) may apply to the particular circumstances of a draft neighbourhood plan or Order.

Section 7: Prescribed Conditions

27. There is one prescribed condition for Neighbourhood Development Plans identified in Schedule 2 of the Neighbourhood Planning (General) Regulations 2012:

"The making of the neighbourhood development plan is not likely to have a significant effect on a European site (as defined in the Conservation of Habitats and Species Regulations 2010) or a European offshore marine site (as defined in the Offshore Marine Conservation (Natural Habitats, &c.) Regulations 2007), either alone or in combination with other plans or projects)".

28. A Habitats Regulations Assessment (HRA) considers the implications of a plan or project for European wildlife sites, in terms of any possible harm to the habitats and species that form an interest feature of the European sites in close proximity to the proposed plan or project, which occur as a result of the plan or project being put in place, approved or authorised. Where likely significant effects are identified, alternative options should be examined to avoid any potential damaging effects.

29. HRA is a step by step decision making process. It can be broken down into four stages. Screening; Appropriate Assessment; Alternative solutions; imperative reasons of overriding public interest and compensatory measures.

30. AECOM undertook a HRA on DDNP. This included a screening assessment to determine any 'likely significant effects' upon internationally designated habitat sites. The screening assessment identified Policy 1: Scale and location of Housing Growth as having likely significant effects on protected European wildlife sites. This required an Appropriate Assessment of the policies and proposed allocations.

31. The international designated sites considered within the Appropriate Assessment for impact pathways that could not be screened out were the Breckland SPA, Waveney & Little Ouse Valley Fens SAC and Redgrave and South Lopham Fens Ramsar. The impact pathways considered were recreational pressure and hydrological changes.
