

Mid Suffolk Disability Forum Action Plan

Making our services
and communities
more accessible

It will be easier to get around local places.

Examples:

- Town centres, local places and countryside areas will be easier for everyone to use.

- More businesses will make their buildings and services easier to access.

- People will find it easier to get where they need to go and paths will be more accessible.

It will be easier to travel to and from places.

Examples:

- People will know what accessible transport is available.

- Transport services will better understand the needs of people with disabilities.

- Local people and groups will work together to improve access to transport.

It will be easier to get changes to your home and support to live independently.

Examples:

- Accessibility is considered when new homes and places are planned.

- People will be able to get help to adapt their home.

- People will know where to go to find housing support.

It will be easier for people to get accessible information and contact Mid Suffolk District Council.

Examples:

- Staff will know how to support all residents.

- Staff will think about accessibility from the start of new projects.

- People will be able to get information in ways that work for them:

People can get information:

- online

- by phone

- in person

- in different accessible formats

It will be easier to get involved in the community, find activities and job opportunities.

- People will know what opportunities are available.

- More opportunities will be designed for everyone to join in.

- People with disabilities will feel included in their community.

About Mid Suffolk Disability Forum

We help Mid Suffolk District Council and the local community listen to and learn from people with disabilities, to make positive changes that matter to local people.
